

Asia Pacific to add 26 million pay TV subs

The Asia Pacific pay TV sector is the most vibrant in the world, with subscriber numbers increasing by 26 million over the next five years. Pay TV penetration will stay at two-thirds of TV households.

China and India together will account for 81% of the region's 649 million pay TV subscribers by 2027. India will add 11 million pay TV subscribers between 2021 and 2027, but China will add "only" 5 million. OTT penetration will remain much higher in China than in India.

IPTV is the biggest pay TV winner across the region – adding 65 million subscribers between 2021 and 2027 to take its total to 337 million. Much of this growth will happen in China [up by 44 million] as cable subs convert to OTT or IPTV and India [up by 16 million].

Simon Murray, Principal Analyst at Digital TV Research, said: "IPTV subscribers overtook cable TV ones across the region in 2021. Digital cable subscriptions will fall by 29 million between 2021 and 2027. China will lose 38 million digital cable subscribers."

Taiwan	4	Taiwan Broadband; TWM; CNS; CHT
Thailand	3	Truevisions; TOT; AIS
Vietnam	8	SCTV; VTVCab; HTV-CMS; VNPT; Viettel; FPT; K+; Viva TV

SAMPLE: Bahrain pay TV insight

Pay TV penetration will not increase by much – reaching 33% by 2027. **Pay TV revenues** will be flat at \$27-30 million as competition cuts ARPUs.

Main assumptions behind the forecasts	
•	FTA satellite TV is the main TV reception platform – accounting for 63% of the TV households.
•	As well as satellite TV, OSN packages are available on most of the other pay TV platforms.
•	Batelco will remain the main pay TV platform.
•	Limited cable networks were phased out.
•	Analog terrestrial switch-off was achieved by end-2013.

Bahrain achieved complete **digital TV penetration** in 2013. About three-quarters of the 282,000 TV households receive digital satellite signals. IPTV subs have overtaken satellite TV.

Main operators by subscribers (000)				
Operator	Pay TV subs	Fixed bb subs	Mobile subs	SVOD platforms
Batelco	56	-	-	OSN
beIN	16	-	-	-
OSN	17	-	-	-
STC	-	-	-	Shahid VIP; OSN; Telly; Jawwy; Spuul
Zain	-	-	845	Netflix; Shahid VIP; Telly; Yupp

The dispute between Saudi Arabia and Qatar hit beIN's subscriber numbers across the region. Most governments followed the mid-2017 Saudi ban on beIN – although not all of them have enforced the ban that effectively. The ban was officially lifted in late 2021. **beIN** renewed several key sports rights, which will help to push its subscriber numbers back up.

Traditionally appealing to expatriates, **OSN** is attracting more local subscribers, although it dropped much of its sports coverage. OSN has exclusive deals with seven Hollywood studios. It will increase Arabic content to a quarter of the total.

OSN provides 41-47 channels for BHD16-35/month (\$42.11-92.11). We estimate that the company had 17,000 satellite TV subscribers by end-2021, falling to 11,000 in 2027 as OSN places more emphasis on its SVOD platform.

Batelco started offering IPTV services via its FTTH network (up to 500Mbps) in September 2011. Batelco had 56,000 IPTV subs at end-2021 and will have 66,000 by 2027. Batelco also offers OSN's SVOD platform (BHD4/month).

Principally a mobile operator, **STC (formerly called Viva)** carries OSN (BHD4/month), Jawwy TV (BHD3/month), Shahid VIP (BHD3/month) and Hindi-language Spuul (BHD2/month). STC is owned by Saudi Telecommunications Company.

Rival **Zain** carries Zee5 (BHD1.90/month), Apple TV+, Viu (BHD3/month) and Shahid VIP (BHD3/month). Zain is 55.4% owned by the Zain Group.

Digital terrestrial switchover, using the DVB-T2 standard, was completed in 2013, although its impact is limited because of the ready acceptance of other platforms.
