

# digital TV research

Digital TV Research publishes 25+ reports each year with 400 clients since 2011. More and more of our clients take annual subscriptions that include all of our reports – with attractive discounts offered.

## Why choose us?

- We cover 138 countries across seven regions
- Detailed bottom-up updates and forecasts by country for pay TV and OTT
- 30+ years of experience and connections: key for the validation of our data
- Flexible, customised research: choose from a single country profile to an annual subscription package.
- Competitive and reasonable prices
- Fast-turnaround on analyst feedback

## Each country report comes in three parts:

- **Insight:** Thorough scrutiny in a PDF document, giving market analysis of the key players.
- **Outlook:** Subscriber forecasts via charts and graphs in a PPT document that can be exported for your presentations.
- Detailed **excel workbook** covering each year from 2010 to 2027 to allow easy comparisons and market growth forecasts.

## Annual subscriptions

Digital TV Research covers very fast-moving sectors. To keep up-to-date with the latest developments, our top clients want frequent updates.

Annual subscriptions achieve this as our SVOD forecasts are updated four times a year and our pay TV forecasts twice a year – for 138 countries.

Annual subscriptions include more than 30 reports.

An annual 1-5 user subscription costs £9,000/€11,000/\$12,000 – saving 80% on buying the reports individually.

Some of our clients focus on a certain region, country or topic. We are flexible in our packages and can accommodate different requests.

## SAMPLE: Qatar OTT TV & video insight

OTT TV & video revenues are forecast to reach \$92 million by 2027, double from \$45 million in 2021. SVOD will contribute \$75 million in 2027, up from \$38 million in 2021. There will be 605,000 SVOD subscriptions by 2027 compared with 362,000 at end-2021. About 54% of the TV households will pay for at least one SVOD subscription by 2027.

Main assumptions behind the forecasts
• The OTT sector is competitive.
• Smartphone penetration is very high.
• Fixed broadband penetration is also high.
• Population forecasts are higher than the previous edition
• High proportion of ex-pats means strong demand for foreign content.

**Netflix** (\$7.99-14.99/month) launched in January 2016. We forecast 213,000 subscribers by 2027; up from 143,000 in 2021. Netflix is carried by Ooredoo.

**Amazon Prime Video** started operations in November 2016 as part of its global rollout. Subscriptions cost \$5.99/month, with little original or local content. We forecast 62,000 Amazon subscribers by 2027.

**Apple TV+** started in Qatar with its global rollout in November 2019, with 34,000 subscribers expected by 2027.

**HBO Max, Paramount+ and Disney+** are not expected to start in the Arabic-speaking countries due to deals with OSN.

**OSN** (briefly called Wavo. QAR35-79.50/month) launched in August 2017. As well as 27 linear channels, OSN exclusively carries Disney+ originals, Paramount+ and HBO content. We forecast 91,000 subscribers by 2027.

After a cost cutting drive, OSN now places more emphasis on its SVOD platform. OSN has exclusive deals with seven Hollywood studios. It will increase Arabic content to a quarter of the total.

Transmitting in English, Arabic and French, **StarzPlay** has 6,000 hours of Hollywood content as well as 2,000 hours of Arabic content. Discovery+ is on offer. We forecast 120,000 subscribers by 2027.

MBC's **Shahid VIP** provides linear channels as well as on-demand content. Ooredoo carries Shahid VIP. We forecast 62,000 subscribers by 2027.

**beIN Connect** provides access to 34 linear channels available on the satellite TV package as well as 2,000 on-demand TV episodes and 300 on-demand movies – free to satellite TV subs or \$18/month to others.

Hong Kong's **Viu** started operations in Bahrain, Egypt, Jordan, Kuwait, Oman, Qatar, Saudi Arabia and UAE in February 2017. With 40,000 hours on offer, local content is included as well as international fare to appeal to ex-pats.

Viu recorded 49.4 million monthly active users across 16 markets by June 2021. Viu had 7.0 million paying subscribers by June 2021, up from 5.3 million paying subscribers by end-2020, 3.6 million in 2019 and 1.4 million in 2018. Most of these subscribers are in South East Asia.

<b>Main operators by subscribers (000)</b>				
<b>Operator</b>	<b>Pay TV subs</b>	<b>Fixed bb subs</b>	<b>Mobile subs</b>	<b>SVOD platforms</b>
beIN	54	-	-	beIN Connect
Ooredoo	156	-	2,660	Shahid VIP; OSN
OSN	42	-	-	OSN
Vodafone	-	5	1,800	-

**The Ooredoo TV IPTV platform** (up to 190 channels, including bundles from beIN, MBC and OSN) is part of a triple-play package (up to 1Gbps). We estimated 156,000 subscribers at end-2021. In October 2015, Ooredoo has distribution deals with SVOD platforms OSN and Shahid VIP.

Ooredoo is investing QAR1 billion on an **extensive fiber network**. Ooredoo is constructing the government-owned National Broadband Network (QNBN). Ooredoo had 2.66 million mobile subscribers by September 2021.

**Vodafone** won the license for the second fixed line service in April 2010. Vodafone sold its stake to a local consortium in late 2018. Vodafone started its Giga TV OTT platform in late 2019. Vodafone had 5,000 fixed broadband and 1.80 million mobile subscribers by September 2021.

## SAMPLE: Qatar OTT TV & video outlook

## SAMPLE: Bahrain pay TV insight

Pay TV penetration will not increase by much – reaching 33% by 2027. **Pay TV revenues** will be flat at \$27-30 million as competition cuts ARPU.

Main assumptions behind the forecasts	
•	FTA satellite TV is the main TV reception platform – accounting for 63% of the TV households.
•	As well as satellite TV, OSN packages are available on most of the other pay TV platforms.
•	Batelco will remain the main pay TV platform.
•	Limited cable networks were phased out.
•	Analog terrestrial switch-off was achieved by end-2013.

Bahrain achieved complete **digital TV penetration** in 2013. About three-quarters of the 282,000 TV households receive digital satellite signals. IPTV subs have overtaken satellite TV.

Main operators by subscribers (000)				
Operator	Pay TV subs	Fixed bb subs	Mobile subs	SVOD platforms
Batelco	56	-	-	OSN
beIN	16	-	-	-
OSN	17	-	-	-
STC	-	-	-	Shahid VIP; OSN; Telly; Jawwy; Spuul
Zain	-	-	845	Netflix; Shahid VIP; Telly; Yupp

The dispute between Saudi Arabia and Qatar hit beIN's subscriber numbers across the region. Most governments followed the mid-2017 Saudi ban on beIN – although not all of them have enforced the ban that effectively. The ban was officially lifted in late 2021. **beIN** renewed several key sports rights, which will help to push its subscriber numbers back up.

Traditionally appealing to expatriates, **OSN** is attracting more local subscribers, although it dropped much of its sports coverage. OSN has exclusive deals with seven Hollywood studios. It will increase Arabic content to a quarter of the total.

OSN provides 41-47 channels for BHD16-35/month (\$42.11-92.11). We estimate that the company had 17,000 satellite TV subscribers by end-2021, falling to 11,000 in 2027 as OSN places more emphasis on its SVOD platform.

**Batelco** started offering IPTV services via its FTTH network (up to 500Mbps) in September 2011. Batelco had 56,000 IPTV subs at end-2021 and will have 66,000 by 2027. Batelco also offers OSN's SVOD platform (BHD4/month).

Principally a mobile operator, **STC (formerly called Viva)** carries OSN (BHD4/month), Jawwy TV (BHD3/month), Shahid VIP (BHD3/month) and Hindi-language Spuul (BHD2/month). STC is owned by Saudi Telecommunications Company.

Rival **Zain** carries Zee5 (BHD1.90/month), Apple TV+, Viu (BHD3/month) and Shahid VIP (BHD3/month). Zain is 55.4% owned by the Zain Group.

**Digital terrestrial switchover**, using the DVB-T2 standard, was completed in 2013, although its impact is limited because of the ready acceptance of other platforms.
